

Abeó Health: Brand Identity Guidelines

Version: 1.0 **Philosophy:** "High Tech, High Touch."

1. The Mission

"To make health feel safe, dignified, and supported — everywhere." Abeó (ah-beh-OH) means "Safe Passage" (Latin) and "Bringer of Happiness" (Yoruba). We are the bridge between the hospital and the home.

2. Visual Identity

The Logo

- **Symbol:** A rounded, approachable wordmark with a subtle **Orange Leaf** accent over the 'o', symbolizing growth, life, and a new day.
- **Usage:** The leaf must always maintain the 30-degree tilt.

The Color Palette

- **Primary: Abeó Teal**
 - Hex: #42C2BE
 - Usage: Main buttons, headers, logo text. Represents: Calm, Medical Safety, Clarity.
- **Accent: Abeó Orange**
 - Hex: #FF8A34
 - Usage: "Call to Action" buttons, notifications, the leaf logo. Represents: Warmth, Energy, Happiness.
- **Text: Charcoal**
 - Hex: #374151
 - Usage: Body text. Softer than black, more readable than gray.

Typography

- **Primary Font: Nunito**

- Why? It is a **Rounded Sans Serif**. It mirrors the logo's curves. It is highly legible but friendly, avoiding the "sterile" look of traditional hospitals.
- **Headings:** Nunito ExtraBold (800)
- **Body:** Nunito Medium (500)

3. Brand Voice

Our voice is **The Capable Guide**. We are not just a cold app; we are a caring person.

We Are...	We Are Not...
Reassuring ("We've got this.")	Alarmist ("Medical emergency!")
Clear (Simple terms)	Jargon-heavy (Complex medical speak)
Warm ("Hello, Sarah.")	Robotic ("User #4092 logged in.")

4. The Ecosystem (Naming Conventions)

- **Abeó Registry:** The network of nurses and caregivers.
- **Abeó Ride:** The transport service (Powered by Uber).
- **Abeó Living:** The senior placement service.
- **Abeó Circle:** The family dashboard where updates happen.

5. Compliance Stance (The "Registry" Rule)

- **Marketing Language:** We never say "We treat patients."
- **Correct Language:** "We *connect* you with independent care professionals."
- **Correct Language:** "Abeó *coordinates* your journey."
